

RESEARCH INTERESTS

- The lives of exoplanets: formation, evolutionary processes, and long-term fates.
- Exoplanet discovery and characterization.
- Measurement and interpretation of stellar variability (rotation; pulsations; occultations).

EDUCATION AND APPOINTMENTS

- | | |
|---|-----------------|
| • California Institute of Technology | Pasadena, CA |
| • <i>51 Pegasi b Fellowship in Planetary Astronomy. Advisor: Hillenbrand</i> | 09/2021–08/2024 |
| • Princeton University | Princeton, NJ |
| • <i>Ph.D, Astrophysics; M.Sc, Astrophysics. Advisor: Winn</i> | 09/2016–08/2021 |
| • Massachusetts Institute of Technology | Cambridge, MA |
| • <i>Physics Ph.D. program (transferred after completing first year). Advisor: Winn</i> | 09/2015–08/2016 |
| • University of Southern California | Los Angeles, CA |
| • <i>B.Sc, Physics; B.A, Mathematics; Minor, Astronomy (GPA: 3.97/4)</i> | 09/2011–05/2015 |

PUBLICATION SUMMARY

Refereed & under review publications: 32 (6 first author; 1 second author).

Unrefereed publications: 1 (1 first author).

Total citations to publications: 2,109 (141 first & second author; 346 many author; 1622 code).

A full listing of my publications is available in the publication list below, and [online](#).

PRESENTATION SUMMARY

Over my graduate studies, I have spoken on my research at 16 national and international meetings (12 contributed talks; 4 invited talks; 1 colloquium; 1 invited panel; and 4 posters). They are listed below.

AWARDS

2020–21 Charlotte Elizabeth Procter Fellowship *Honorific fellowship for final-year Princeton Ph.D. students.*

05/2015 USC Discovery Scholar *University fellowship based on research portfolio towards graduate study.*

04/2014 Goldwater Scholarship *National fellowship for undergraduates pursuing careers in STEM.*

05/2013 NIST Summer Undergraduate Research Fellowship

2011–15 USC Trustee and University Scholarships *Full tuition award and merit stipend.*

GRANTS AND TELESCOPE TIME SUMMARY

During my graduate studies, I helped write the grants that support my main dissertation project, the Cluster Difference Imaging Photometric Survey. I led ground-based observing programs to confirm planet candidates from this survey. This involved winning telescope time through national competitions, both as Principal Investigator (6 proposals; 22.5 nights) and as Co-Investigator (5 proposals; 89 nights).

SERVICE & PUBLIC ENGAGEMENT

- *Skype a Scientist:* Spring 2020 — present. Gave 6 public talks (remotely) in K-12 classrooms.
- *Resident Graduate Student:* Fall 2018 — present. Resident advisor to 30 undergraduates per year. Encouraged a civilized and supportive residential environment; hosted star-gazing nights, office hours, and social events.
- *Observing Outreach Organizer:* Fall 2016 — Fall 2019. Organized over 20 public observing events at Princeton's department telescope. Led outreach team to host groups ranging from 10 to 100 people; separately hosted private groups (*e.g.*, middle and high-school classes; student clubs; university staff).
